Burial Records of Vine Street Hill Cemetery 1852-1977 1-504

Surname Index 505-576

INTRODUCTION

Our Society is most appreciative of the permission to publish these records for the first time. All names, dates, location of burial and other information given on the file cards of this cemetery from 1852 through 1977 were copied. Burials for the beginning years were listed on the lot ownership cards and these were not copied. Some listings after 1977 were also included as they were added to the file before we had completed abstraction. Unfortunately, we did not have a computer to place all names in perfect alphabetical order. However, with the inclusion of additional relationship names one should use the index to obtain all page numbers for each surname. In some instances family relationships can be found for three generations. We did not have the time required to cross-reference the file cards with the cemetery sectional record books of burial to possibly avoid the omission of a name from our publication. This file was also microfilmed and may be viewed at The Public Library of Cincinnati and Hamilton County.

The lack of additional personal information for some entries may be atributed to the administration or secretarial changes during the extended period of years. Many of the names of added relationship were given on the file card but this was not always stated or uncertain. None of the records indicate race of individuals. Afro-Americans have been buried in this cemetery since 1974. A gravestone inscription may give the place of birth or the birth name of a woman. However, every burial does not have a gravestone. The plat maps in the front of the book were included to aid researchers in using the location listed to find the actual burial site. The administrative staff will also assist visitors to find burial locations. The plat maps included were reduced in size from those drawn to scale.

You will find surname spelling variations in the surname index. We do not know whether individuals changed their spelling of name or if it was because of secretarial inefficiency. It was necessary to use a number of standard abbreviations to conserve on the amount of space needed to include the additional family information.

Notations of military service were added for all the names listed in the Veterans Grave Registration File of Hamilton County, Ohio as of 1940. A notation of military service veteran or Vet. Marker was made for names after 1940 when the cemetery file card stated they had a veteran government marker. We did not check the Grave Registration File after 1940 for time the deceased had been in military service. The small black rectangular marks on the plats indicate grave of a soldier.

The place of residence and death is given when they were listed as being other than Cincinnati, Ohio or Hamilton County, Ohio. Otherwise they may have resided or died in Cincinnati or Hamilton County, Ohio or place of death was not stated on the file card.

This book will aid many researchers seeking to document the early German settlers to this area. In appreciation we recognize the following members who have assisted in making this publication a reality: Mr. Everett Adams, Mrs. Nancy J. Burck, Mrs. Chloe M. Colby, Mr. James G. Dempsey, Mrs. Marjorie Diebel, Ms. Beverly R. Hafemeister, Miss Betty G. Hamlin, Mrs. Joan I. Hughes, Mrs. Joan H. Jester, Mr. Franklin D. Knecht, Mrs. Kathleen LaDow, Mrs. Grace Manning, Mrs. Monica Willians-Mitchell, Ms. Jean H. Morrison, Mrs. Virginia Neave, Mr. William B. Ross, Mrs. Marjorie Schuster, Mrs. Evelyne M. Shaver, Mr. John D. Siles, Mrs. Nancye L. Stern, Mrs. Sharon Williams.

Project Chairperson,

Mary H. Remler

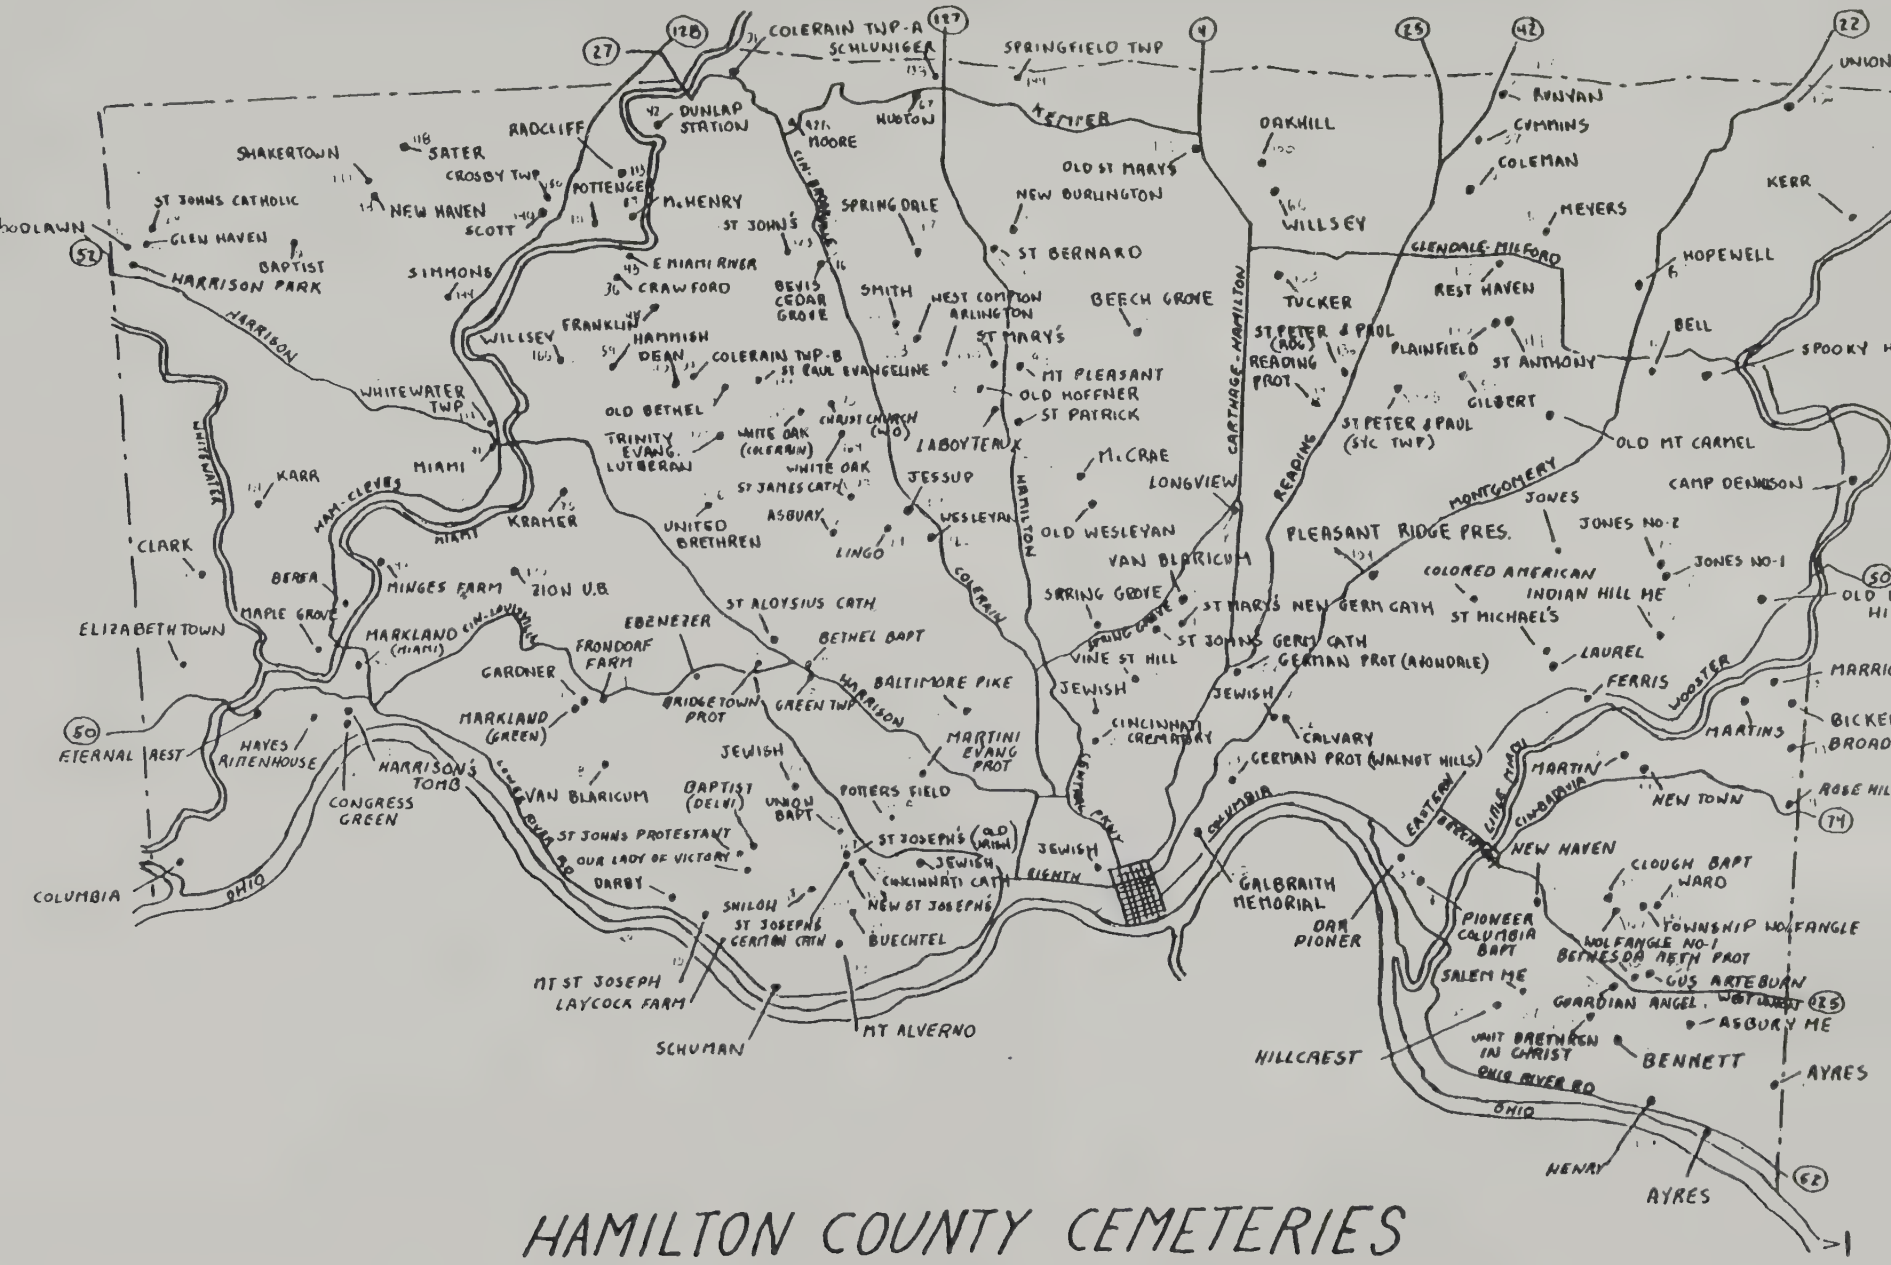
HISTORY



This cemetery has not always been known as the Vine Street Hill Cemetery. It was started by the members of the German Evangelical Reform Churches of St. Peter and St. Paul of Cincinnati, Ohio. It was known as the German Evangelical Protestant Cemetery on Carthage Road or just Carthage Road Cemetery, located three and a half miles from the city. Burials that had been made next to the St. Peter Church at 3001 Queen City Avenue were made to this cemetery in 1871. Many of the death records on file for the City of Cincinnati, Department of Health, which start in 1867 give the place of burial as Carthage Road on which the entrance was then located. The name of Carthage for this section of road starting north of Glenmary Avenue was changed to Vine Street after the suburb of Clifton was annexed to Cincinnati in 1896. The original and main entrance is at 3701 Vine Street and the Cemetery is known as the Vine Street Hill Cemetery.

In 1849 many residents of Cincinnati were stricken with cholera and the need for additional burial area developed. The Germans also thought the cost of "English" burial ground was too expensive. On February 26, 1850 the first land was purchased from Samuel West. In August 1882 additional land was purchased from F. Feldman and S. West. Today the cemetery consists of 170 acres of land. The immediate area was developed as a residential community by a large influx of German immigrants. The German people desired to continue their traditional customs. They purchased family lots for multiple burials so that they could be buried together and near where they had lived and still be convenient for the ritual of visitation. Four generations of the Dahmann family served as superintendents prior to 1871. Many people over the years have contributed their services gratis on behalf of the cemetery, and especially the Meier family.

A receiving vault for twelve was built in 1850 and in 1884 a chapel was built in front of the vault. An area on the west side of the property which now adjoins Section 22A and Woodsview was once called Dietze Basin, which was holding bank No. 2 for the Miami-Erie Canal. This is now a pond. Fred H. Benner established in 1929 the present system of management. The office building was built in 1933 at the Vine Street entrance. The first floor is all used as office space and the upper floor was for a residence of the superintendent.

In 1963 the management joined the ecumenical movement and became interdenominational for burials. Along with other changes in 1974 they opened the cemetery to all races. A beautiful Mausoleum was built in 1976 that can be viewed from the Interstate highway. Thirty acres of land owned by the cemetery were taken for the construction of the Interstate 75 highway. A second entrance for the cemetery was added on the north end of the property from Mitchell Avenue, which is an egress from the Interstate highway.

Many of the graves for the 1800's have artistic markers carved of stone to the likeness of the deceased, a custom of time period. Some even have ceramic photos on their markers. The management has complete records of lot owners and burials and plans to provide burial space for at least twenty more years. Mrs. Marje B. Ferguson is the present general manager and has been affil-affiliated with the cemetery since 1960. The following named section's have been opened since 1982 for burials: Woodsview, Vineview, Meadowview, Mueller Heights, Chapel Heights, Beechview, Veterans, Wilson Ridge, Ridgeview and Garden of Olive.
